Basket Ball Festival

At Edginglassie

The gaining popularity of basketball was much in evidence on Friday evening when our girls and supporters journeyed to Edginglassie. Five cars loads in all wended their way northward. Everyone was well pleased with the showing the girls made. This is the first year for basketball in the district; and much credit is due to Miss L. Brent for organizing the initial team and giving the game a start, with her result that there are now three good teams in the district.

sport is looked for next year.

The first game of the evening between Roros and Chauvin was well contested throughout. Right from the start the ball moved fast all the time and at no stage was there a dull moment. The Chauvin girls played in fine form and showed a decided improvement over their previous games, which was very gratifying to the coaches who helped them to hold a stiff practice the evening before. The teams were evenly matched and played fast and heady all the way.

A notable feature of the game was the combinations well placed, instead of the usual hating the ball anywhere, several times the ball was worked from one end of the field to the other by the skillful passing of the girls.

It was hard to find fault with the game. In this respect our girls showed great need of practice. Roros was somewhat handicapped by having to borrow a couple of players to fill up their team on account of the regulars not being able to get to the Edginglassie game. The game ended 8 to 5 in favor of Chauvin.

The teams lined up as follows: For Roros—Guards; Misses T. Villa and M. Simpson; Centres; Misses M. Erickson and M. Nyseth; forwards Misses Ida Arnsen and B. Reinhart.

In the second half Miss L. Brent replaced Miss Reinhart.

For Chauvin—Guards; Misses P. Cahill and Eunice Hass; Centres; Miss Olive Fokins and Annie Saul; Forwards; Misses E. Ellis and E. Hass.

The second game was between Edginglassie and Chauvin was as keenly contested as the first game. Edginglassie started the scoring but were soon overaken, and on the ret of the game Chauvin was in the lead. At half time the town girls were leading by 7 to 4. Though the field play was fast in the second half the game checked very close with the result that there were no scores made during the period.

The Chauvin team lined up the same as in the previous game. During the later part of the game Miss Dorothy Saul substituted for Miss Edginglassie team was: Guards; Misses M. Simpson and E. Harris; Centres; Misses E. McSparran and J. Simpson; forwards; Misses L. Brent and B. Reinhart.

Mr. Claude Laws, as referee, handled both games in a very efficient manner.

After the games an enjoyable dance was held in the school house and refreshments were served.

They all smack their lips after eating Fred's Chocolates; for sale in bulk at

The Chauvin Pharmacy.

ARTLAND ARGUS

Born in Artland on the 29th August a daughter to Mr. and Mrs. Proctor.

The agent of the Cockshutt Coy. was travelling round this district last week in company with Mr. McEne.

During an interesting conversation we recently had the pleasure of holding with Councillor Lawson. We learnt various details regarding road work activities in this district, as well in the province generally.

In the main road that has been carried to the eastern boundary of Alberta by the Edmonton government is now taken up by the Saskatchewan authorities.

Strong outfalls are engaged two miles north of Artland at the corner of the Manitou Lake trail—opposite Mr. William Porras.

The route will extend east in the direction of Cutknife.

The general idea of a great trunk road linking up the West and East, is now seriously being undertaken.

This project with feeders and branches north and south will in time accomplish a great difference in the appearance of the country, but what is of more importance, will link up the Atlantic and Pacific coast with a system that promises to be worthy of the Dominion.

The Federal and Provincial Governments are pledged to this line, and neither to say that urban Councils and the rural municipalities are in the chain.

Ontario is forging ahead in these important matters, one district alone in the neighbourhood of Mr. Lawson's former home, being involved to the extent of some eight million dollars.

As for the progress of Quebec in the matter of roads alone, under the regime of the late Gouin administration for fifteen years, the administration has been extraordinary.

The station at this point evidently aspires to live up to its name—like the Chameleon it is evolving through the tints from amber and cardinal to maroon! Quite artistic!

(Note we have been compelled to hold over an interesting account of a S.S. meeting at Brady till a later issue—Editor C.C.)

LADIES COLUMN

Proven Recipes

YELLOW SALAD

Cut a grape fruit in halves, scoop out the pulp, leaving the shells entire. Separate pulp from membrane, add an equal amount of ripe pineapple pulp cut in small pieces, and one half cupful of chopped almonds. Let this soak in the following dressing: two tablespoonfuls of grape fruit juice three tablespoonfuls of honey, four tablespoonfuls of olive oil and a little salt. When ready to serve, stir well and fill grape fruit shells. The honey gives a delicious flavour, but maple syrup be substituted if desired.

BALETTES OF SARDINES

Take six small rounds of fried bread one ounce of butter, a little minced parsley, one hard boiled egg, a seasoning of salt and pepper, and cayenne, some sardines. Put the fish into hot water for ten minutes; lift out, scrape off the skin and beat flesh to a paste pass it through a sieve, then put it into a stewpan, with the butter and seasonings, and heat thoroughly. Spread the rounds of fried bread with butter and dip them in the grated yolk of egg. Make the mixture into round balls and place one on each round. Serve hot with a little parsley sprinkled over.

BAKED HAM

Select a ham that is perfect in the point of quality of meat and flavor. Soak and scrub the ham and then encase it in a thick paste of flour and spread thickly over every part. Set it on the rack in a baking pan in a hot oven. When the paste is baked thorough lower the heat and bake for four and a half hours. When the ham is tender take from the oven and remove the crust and skin. Sprinkle thickly with coarse breadcrumbs and brown sugar and return to the oven to brown.

STEWED CELERY

Break the inner white stalks into one inch lengths; put them into a stew pan with enough milk to cover, and boil until tender; drain, season the milk with pepper and salt. Thick en with flour and butter; boil for a few minutes; add celery again, and serve hot garnished with strips of dry toast.

THE HALYARD THAT CAUSED THE RESOLUTE TO LOSE THE FIRST RACE

It was this piece of rope, held here by Dorothy Latton, stage and screen star, that caused the Resolute to lose the first of the International races with the Shamrock IV. Known as the throat halyard it gave way when the Resolute appeared a winner, and compelled her to drop out of the race.

Strong in the belief in the immortal superstition that is a halyard breaks the yacht will be attended by hard luck until it is touched by a woman, one of the sailors of the Resolute took a piece of the halyard to Dorothy Latton. So when the wrecked achieves final victory don't be surprised.

Useful Hints

Floors scrubbed with cold water soap and wood ashes always present a good appearance.

When a cake is in the oven always close the oven door gently; and do not open it early when the cake is rising.

Carbolic acid is a good disinfectant, but is practically useless unless diluted with at least twenty times its bulk in water.

Do not throw away soap suds on

washing days. Both ashes and suds are good manure for bushes and young plants.

A letter which has been sealed with the white of an egg cannot be opened by the steam of boiling water, as the heat only adds to its firmness.

When washing cut glass add turpentine to the water in proportion of one tablespoonful to two quarts of water and you will get a clear and brilliant polish.

The Editor's Table

Roros school is entitled to honorable mention for the creditable showing made by its scholars at the recent Chauvin Fair. We are not a little proud of their exhibition which reflects credit to scholars, teachers, parents and their district. They have set a standard for other schools in the whole district.

If we judge the character of these children aright we would say that next year we will see a further advancement made by the scholars of Roros school in both quality and quantity.

A survey of the list of prizes won by the children at the Chauvin Fair reveals an almost complete absence of the names of any of the scholars of the Chauvin Public school. At the same time a number of the rural schools and the separate school have

a fair representation.

In view of the fact that the Articultural Society held the competitions equally open for all schools and for all school children, we are forced to observe that the scholars of the Chauvin public school have displayed a serious lack of interest in these healthful, of the honor of their school.

The scholars of the Chauvin public school are fully entitled to the "Booby" prize at the Chauvin fair.

Whilst talking about school matters we may observe that the Alberta educational authorities have at last realized the imperative necessity of the essential object of primary school education—to write and spell correctly. In the recent departmental examinations only 53 per cent of the Alberta students sitting passed in their respective grades. Those entrusted with the duty of marking the

papers were instructed to deduct marks for errors of spelling, with the result that a large number failed by this reason alone.

This seemingly harsh system of marking papers is, in reality, the kindest and only satisfactory method—it must ever be borne in mind that the true object of primary education is to prepare the scholar for the later business in life. Whatever vocation may later be followed by the scholar has not yet been determined. But it is known that whatever that vocation may be it is of utmost importance that those entering must be able to read and write correctly. Further the scholar cannot learn the advanced work of the high school until he or she has mastered how to spell, read and write correctly. Still more it is essential for their progress in the business of life in which they will later engage.

The disastrous results obtained by the Chauvin and district pupils, will prove a distinct advantage in the long run, if it stirs our scholars sufficiently to see the need of real work in the class room. And that the class room is not simply a waiting room for them until play time or until they are old enough to leave school.

It is by no means fair to saddle all the blame for poor examination results upon the staff marking on the one hand, or to the staff of teachers on the other. The past two years results have shown a steady deterioration—a result, we believe of the children failing to recognize the importance to themselves, of thoroughly mastering the lessons given them.

In the meanwhile the ratepayers ask "Are we not wasting our money?"

When you "gun" a person for an unpaid bill, do you realize that the word was really the name of a man, an Englishman called John Dun, who had such success in collecting bills that his name passed into current phrase and became a synonym for collecting a bad debt?

A game of baseball was being played "over there"; American boys on the one side and English and Colonials on the other. A critical moment came in the game and an East Indian stepped up to the plate. He looked upward and said: "Allah, give thou me strength to make a hit."

The next man up was an Irishman. He spat on the plate, made faces at the pitcher, and yelled: "You know me, Ah!" He made a home run.

It is a wonderful help to education to pass on what we have learned; there is no impression without expression.

W. L. A. Presentation To Olive Folkins

A very pleasant time was spent by the members of the Westminster L.A. last Thursday afternoon. There being twenty-two members present.

A present, consisting of an ivory brush and comb was given to Miss O. Folkins, who is leaving for Camrose, in recognition of her valued services at the organ for the past three years.

A musical program was given by Miss Saul and Mrs. Freeman, the latter also giving a recitation. Tea was served by the W.L.A. members, who enjoyed the hospitality of Mrs. C. G. Porryan for their meeting place.

Do you know you have to do at once, and it is a matter of only a few minutes; put it off a month and you will have to spend a month in doing it.

Ribstone Notes

Mrs. Masters and little daughter Mildred who have been visiting with relatives in Ontario returned to their home last week.

Some of the young folks enjoyed the sport of riding the young married couple who took the train on Wednesday afternoon.

There are a lot who are wondering who the young lady was that was sporting around Ribstone last Thurs-

day evening and disappeared so quickly.

Mr. and Mrs. N. Wilde are keeping house for Albert Burton.

Several of the Ribstone ladies are talking in the convention at Edgerton on Thursday.

The New Ribstone School opened for the fall term on Monday.

Miss Coke spent the week end at her home in Edmonton.

Miss Becker and two little children from Edmonton are visiting friends around the LaPearl district.

Care Of Cows

At Freshening

The care and feeding of the dairy cow for the first month of her lactation period is of great importance. Many a good year's production has been ruined by the failure on the part of the feeder to bring the cow to her milk gradually by the proper feeding. All men familiar with feeding livestock realize that the animals cannot be brought to full feed in a few days' time. Especially is this true of the dairy cow. If she has been cared for properly for the first three days following calving she is then ready to be placed on a regular dry ration. The grain mixture should be selected in order to eat the individual cow's likes and dislikes and to furnish the proper balance of food nutrients at the cheapest cost.

Grain After Four Days

Beginning about the fourth day with a grain mixture of possibly four to five pounds daily, the ration may be gradually increased. It is important that the increase of the grain feed should not too rapid. In fact the addition of half a pound of grain every other day is sufficient. This is true because of the fact that a cow will respond practically as well to a small increase as to a large one, providing it is gradually maintained. It is profitable

under all practical conditions to conditions to continue in increasing this as long as the cow continues to respond profitably. When the amount of milk produced daily does not increase then the ration should be gradually decreased.

As a general rule it will be noticed that the milk flow will increase again when the ration has been sufficiently reduced. The exact amount of grain the cow should receive will be just a little less than the amount she was receiving before the first decrease in flow was noted. If she is given much less than this amount her utmost production cannot be expected.

Chauvin Agricultural Directors Meeting

A meeting of the directors of the Chauvin Agricultural Society was held last Saturday afternoon. The minutes of which have not reached us in time for publication.

Chauvin W. I. Notes

The C. W. I. are conducting a Grain Campaign asking every farmer to contribute a bag of grain from their next harvest towards the building of a permanent rest room for the accommodation of ladies and children from the country when visiting town which they have undertaken to erect.

The W. I. will be very pleased to accept a bag of grain or value of same towards this worthy cause.

Chauvin, Alta
August 24th 1920.

Chauvin Chronicle
Dear Sir,
Would you kindly find space in your paper to insert this letter.

There seems to be an impression and a very injurious one to me that I was responsible or a letter being written to the Government in reference to the management of work being done on the road in the Chauvin district. I wish to say for the benefit of all concerned, including myself, that I had absolutely nothing to do with it.

Yours truly

GIRLS BODY FOUND IN TRUNK
SHIPPED FROM DETROIT TO NEW YORK

The trunk in which the body of a
pretty woman of about 25 was found
in the warehouse of the American
Railway Express Co. in New York.
The trunk had been shipped from Detroit
to "James Douglas, New York

City." It was unclaimed and has re-
mained in the warehouse for more
than a month. David Demarest, an
employee of the warehouse opened the
trunk and made the gruesome dis-
covery. The body was nude.

The Trend Of Prices

Prices are working lower, but those
who expect a substantial decrease
wait some time. The Labor Gazette
gives the average cost of a weekly
budget for June \$16.92, as compared
with \$16.02 in May, \$13.72 in June
1919, and \$7.35 in June 1914

This looks like an upward trend but
wholesale prices show a slight decline
the index number for June being 349.3
as against the high level of May 356.6
Retail prices must follow more slowly
—wholesalers will be the first to feel
the trend. — the diffusion of lower
prices through retail channels necessarily
takes time.

The general trend of wages may
still move upwards in spots and no
doubt the increase of railway rates,
which now seems inevitable, will give
further cause for the stiffening of the
prices. Several factors are at work
all tending to decrease consumption.
The average person will not continue
indefinitely to purchase as prices go
up. There comes, eventually, a time
when the worn turn consumption
declines and the downward trend
gains accelerated force. In any gen-
eral movement of prices there are al-
ways actions where the wage increase
comes slowly.

Money must continue tight. The
bulk of our net debt of over \$2,000,
000,000 was not created for construc-
tive purposes. It represents smokes
and high explosives devoted to the
cause of freedom. But freedom is
not a material thing and no matter
how much we desire it or how willing
we would be to spend three times the
amount for a similar purpose, we
must not forget that wars butter no
paranips and the machinery of pro-
duction runs down under the strain of
war. The amount necessarily ex-
pended by this country on war since
1914 would have been of great benefit
in improving our railways, canals,
bridges and roads, and in the develop-
ment of various enterprises of a ne-
cessary national character throughout
the Dominion.

Some of the wastes of war we pay
for in high prices, some in tight money
and for still others the means of pay-
ment is through the many and di-
verse channels of taxation.

Hair turning white in a night from
grief or suffering sounds well, but a
well authenticated case is not on re-
cord. The case of Marie Antoinette
is often cited. Her hair is said to have
turned white in the night before her
execution. But she had long been gray
—the dispelling of which sign of ad-
vancing years occupied the attention
of her maid up to the time of her mis-
tress' imprisonment.

Our Weekly Sermon

JACOB'S WRESTLING

Gen. 32:21.—And Jacob was left alone, and there wrestled a man with him until the breaking of the day.

Twenty years before this Jacob left the land of his birth, fleeing from the wrath of his brother Esau, alone and poor. Now he is returning rich in cattle, camels, goats and asses. He was very successful in exile, and was returning to his native land.

Jacob expected to meet his brother, whom he had wronged. He suspected Esau would seek to take his confidence to him.

but when he heard that Esau was coming, he prepared to meet him by prayer, the first recorded prayer in the Bible. Then he divided his followers into two bodies, and sent forward presents to Esau to appease his anger. He remained behind to think over matters in the dark when he was seized by strong hands. Jacob wrestled until the break of day.

Why did God oppose Jacob? Jacob was in a wrong state of mind. He thought he could win the land by his own wits. To such a man God could not give the land promised to Abraham. Jacob's opponent touched his thigh, and put it out of joint. Jacob came to his antagonist and said, "I will not let thee go except thou bless me." Thus God prevailed with Jacob and got him into the right frame of mind.

Jacob also prevailed with God. He

was blessed by God. So there was a double victory. Hosea says "He had power over the angel and prevailed." So it always is. When God prevails with man, man prevails with God. Both win and neither loses; but the man gains far more than God.

Jacob did not win until he felt his weakness, and did nothing but cling and supplicate. So long as we oppose God we never win, but when we yield we win victory over self and gain God's love and mercy.

Jacob got a new name and a new nature. The old name supplanter was changed to Israel Prince of God. His name was changed because he had a changed nature. Yet he remains Jacob still. For the character is like the face which indicates it, the features do not change, but the expression does.

He also got spiritual power. He had influence with God and man as he never had before. He did not depend upon tricking to gain his ends.

There are two questions we should ask ourselves. Has God ever prevailed with us? If we have not prevailed with God, it is because He has not prevailed with us. He has been trying, but we have resisted and continue to resist. Let us like Jacob cease our opposition, and ask His blessing; then we shall win a double victory, and both be gainers, instead of losers.

CHINESE SLAVE GIRL RESCUED BY SAN FRANCISCO POLICE

Loi Mui a young Chinese girl who had been a prisoner for six years in a building at 1115 Stockton St. San Francisco. She recently affected her escape by dropping a note from the window of her room written in Chinese and found by a young Chinaman

and subsequently turned over to the police. Loi Mui was rescued and when questioned by an interpreter said she had dropped many such notes but nothing had ever come of it. She is now in the city prison while her case is being investigated.

PROVINCIAL BOND ISSUE

The provincial treasurer is now calling for tenders for a two million dollar bond issue for Alberta. The bonds are for ten years with interest at six per cent. The money from this issue is to be devoted to telephone construction and other public purposes, and is in addition to the domestic loan now on sale in the province.

SUCH A LONG TIME AGO

He had reached the philosophical stage when he slipped into a restaurant for a bit to eat. He ordered. Then he sat staring ahead, quietly, thoughtful in expression and waited, considerable time passed.

At last it came. As the waitress put the order before him, he started from his deep study, as if he had forgotten he had an order coming. Then looking up at the fair transporter of edibles, he said:

"You don't look a day older."

Crops Are Best**Since 1915**

Very light and local frosts have occurred in parts of the district, but up to the time of writing the grain crop looks like a sure thing.

Somewhat ago we were charged as being too optimistic with our crop reports. It now appears our reports were more than justified. The consensus of farmers reports coming in to our office is that the crop is the best since 1915.

Those who have travelled through the West much in the past few weeks all agree that our district is a premium one this year.

SPECIAL NOTICE

Will Resident Owners of lands

locality concerned may be directed to
same.

Rumours are heard as to "weeds or
mustard on such and such a farm;"
but no one seems to think it worth
while to report the fact to the pro-
per quarter. Only four reports have
been entered during the season so
far. All reports should be made to
the Secretary, who will forward same
to the Council for the district af-
fected. After inspection has been
made, the notice is sent out to the
owner of the land where the weeds
are found.
